1. Applicant urges that 1) the STF (special technical feature) as indicated by the Examiner is a polyethylene filament having a tensile strength, 2) tensile modulus and 3) index value of circular knit, The STF is repeated in the remaining groups such as claims 6, for example.

Simply put, nowhere in claims 6,10,11,13,17 is the index value of circular knit found.

The Primary Examiner had a QAS check your claims for Unity of inventions however there was none found for the same reasons given by the Primary Examiner. Thus, there can be no Unity of invention when the STF (single inventive concept) supra is not found in the other groups under PCT rule 13. Hence, the Lack of Unity election is deemed proper and hereby made FINAL.

2. This application is in condition for allowance except for the following formal matters:

Cancel nonelected claims 6-17.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
